The Community is Organizing Against Obama Socialized Medicine

By JB Williams [Friday, August 7, 2009](#)

The Organizer-n-Chief is so desperate to silence any and all debate on his plan to nationalize 1/7th of the US economy by confiscating control of the US [health and insurance](#) industry, that he has established a stool pigeon hot line on the White House web site, calling for his rat fink minions to narc out their neighbors if they dare to speak out against ObamaCare.

Hitler and Goebbels would be proud of Obama's flag@whitehouse.gov effort to track and silence his political opponents... But American citizens are just plain pissed off about it!

Organizer-n-Chief Orders Citizen Army to Action

In response to public outcries against Obama's rush into unbridled Marxism, the breaking point of which appears to be his plan to capture federal control of the entire health and [health insurance](#) industries, Obama is ordering his "civilian troops" to confront dissenting voices, currently turning town hall propaganda meetings into TEA Party revolts across the country.

When Obama grabbed federal control of the banking and auto industries, the people were shocked to learn what kinds of "change" Obama had in mind for their once-free republic. But as he moves on an industry that not only represents 1/7th of the US economy, but a matter of life and death for millions of Americans, the people decided to its time to confront their representatives in a very personal way.

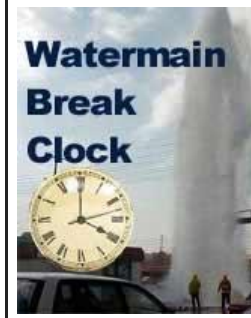

Thrown off balance by the unexpected rude awakening of the normally silent sleeping public, Obama's henchmen immediately set up a direct snitch-line to [the White House](#) and ordered its well organized and well funded citizen thug militia into the field of battle at upcoming town hall meetings.

Within hours of White House marching orders being issued to the Obama goon squad, the shouting turned to shoving at several town hall meetings across the country. What did Obama think would happen when his labor union and ACORN thugs arrived to confront citizens already fed up with being ignored by their [federal employees](#)? -

Is Obama Intentionally Inciting Violence?

Obama's "brown shirt" effort to mobilize his labor union and ACORN thugs against his political dissenters is likely to result in outright violence. Sooner or later, one of Obama's thugs is going to "get in the face" of the wrong angry citizen and when that happens, the talking will end and the violence will begin.

Remember this [Obama call-to-arms](#) from his campaign trail?

The career community rabble-rouser said - "I want you to go out and get in their face!"

Leftist Democrats are accusing average American citizens of "lying" about his [health care plan](#). They have labeled all honest dissenting Americans "right-wing crackpots" who are engaged in "spreading lies" about Obamanations nationalization of America. And he has ordered his citizen troops to "go out and get in their faces..."

What possible positive result does he expect from that ill-advised maneuver?

Who's Lying Here?

O-bots are telling the people that Obama is not after a "single payer" socialized [health care system](#), and call all who say otherwise "liars." But here's a video of Obama himself talking about his "single payer" Marxist ambitions, along with his Marxist friends in [congress](#)...

There is NO debate over the very real fact that health care is expensive in America, in part because it's the best health care anywhere in the world.

There's also NO debate over the fact that health care insurance is TOO expensive and TOO limited in coverage. It has been that way ever since congressional Democrats led by Teddy Kennedy, invented the HMO and became the paid-for prostitutes of the biggest lobby in Washington DC today, trial lawyers.

But here are the two BIGGEST lies in America today concerning health care, and they are being told by Obama and congressional Democrats.

Federally run health care is not socialized medicine. But of course, it is! Obama run socialized medicine is not only the best answer, but the only answer.

Like every federally run entitlement program in America today, Medicare is indeed going bust. Of course EVERY federally run entitlement program, which already consumes more than 60% of the entire federal budget, has either already gone bust, or is fast going bust.

The notion that the federal government is the answer to any problem in America is a gigantic lie itself. The federal government is at the root of every problem in America today, including the so-called “health care crisis.”

Americans can see the Lie

Contrary to the popular belief held by leftist Washington elitists, Americans are NOT stupid, nor are they incapable of managing their own lives, including their health care choices.

Americans were born with an ability to smell a leftist liar from miles away and they are sick and tired of being lied to by Washington bureaucrats on both sides of the political aisle. They have watched DC elitists bankrupt every thing they touch for decades and they are fed up with the outright lie that the federal government is capable of fixing anything in America.

Worse yet, they are fed up with being handed the bill for Washington DC’s irresponsible spending habits and they are ready to put a stop to it right here and right now. Nationalized health care is the straw that broke the camel’s back and ended any form of civil tolerance for blatant nonsense!

AARP on the Run

Obama pimps running AARP have been bought and paid for by leftists, just like the labor movement and all other special interest voting blocs.

For years, senior citizens bought the notion that AARP was looking out for their best interests, believing it was a senior citizen watchdog group allegedly looking out for the special needs of Americas aging population.

But seniors have now busted AARP executives pimping for Obama and his socialized medicine at the expense of their very lives, and confronted by

AARP members, AARP execs are scrambling to publicly distance themselves from Obama's health scare scam, albeit yet another outright lie. AARP execs are in Obama's hip pocket and that's where they will stay...

Congress isn't reading the Bill, but citizens are!

Citizens are forced to do their own homework if they want any truth to what Washington DC is doing. Get real! Obama won't even disclose his birth, adoption, college or passport records. You think he'll be "transparent" in his efforts to replace the free republic with a secular socialist global state, or his rush to grab 1/7th of the US economy?

Here's a detailed list of what Washington Democrats don't [want you to know](#) about their plans for YOUR health care...
